

EVERYTHING YOU WANT IN A COUPLING, INCLUDING LEAK-PROOF DESIGN

RAMPTECH® LAVATORY WYE DRAIN COUPLINGS

are engineered for ease of use and highly reliable performance without spillage or leakage.

Made of impact-resistant and non-porous composite that is 40% lighter than aluminum wye drain couplings, these couplings make it fast and simple to remove the lavatory drain plug or “donut” from the aircraft lavatory drain nipple – allowing waste to drain at full flow into the lavatory service truck while eliminating ramp spills to ensure rapid waste removal.

A high-visibility yellow collar provides further productivity and performance.

Stainless steel outlet nipple adapter for quick-change operation: **SAGE PN#: 383333**

Hose bib connection for all standard 4 in. lavatory service hoses, **SAGE PN#: 383331**

FEATURES

- ELIMINATES RAMP SPILLAGE AND ALLOWS FULL FLOW FOR RAPID WASTE REMOVAL
- UTILIZES A STAINLESS STEEL FOR ADDED CORROSION RESISTANCE AND DURABILITY
- DURABLE, IMPACT-RESISTANT, NON-POROUS COMPOSITE MATERIAL
- 40% LIGHTER THAN ALUMINUM WYE DRAIN COUPLING
- DISTINCTIVE YELLOW COLLAR FOR HIGH VISIBILITY
- PROVIDES LEAK-PROOF CONNECTION ON ALL STANDARD 4 INCH DRAIN NIPPLES

RAMPTECH® LAVATORY WYE DRAIN COUPLINGS

are designed for a leak-proof connection on all standard 4 in. drain nipples, and they also feature a stainless steel cam ring as well as a stainless steel retaining washer, snap ring, and control shaft for extra corrosion resistance and superior durability.
